# GD32 Virtual ComPort User Guide

Step 1 Connect the detector to PC with the provided download cable, turn on the machine.

Step 2 Right-click *My Computer* and select *Manage* from the context menu.

Update Drivers - GD32 Virtual ComPort in FS Mode

How do you want to search for drivers?

→ Search automatically for updated driver software
Windows will search your computer and the Internet for the latest driver software
for your device, unless you've disabled this feature in your device installation
settings.

→ Browse my computer for driver software
Locate and install driver software manually.

Step 6 Select this item

Cancel

Update Drivers - GD32 Virtual ComPort in FS Mode

Browse for drivers on your computer

Search for drivers in this location:

VCP Driver   Browse...

☑ Include subfolders

Step 7 Click *Browse* and select the
driver file.

→ Let me pick from a list of available drivers on my computer
This list will show available drivers compatible with the device, and all drivers in the
same category as the device.

Step 8 Click Ne*xt*

Next   Cancel

Windows Security

Windows can't verify the publisher of this driver software

→ Don't install this driver software
You should check your manufacturer's website for updated driver software
for your device.

→ Install this driver software anyway
Only install driver software obtained from your manufacturer's website or
disc. Unsigned software from other sources may harm your computer or steal
information.
